Profile

A unique thinker with a background in engineering and life-long passion for art and design. Strongly motivated by emerging technologies, sustainability and creating memorable experiences through design. Having experience founding an e-commerce business and possessing advanced communication skills - I adapt to change and am able to mitigate problems easily. Environments that are fun, curious and always learning are where I thrive.

Education

- 2015 **Swinburne University**
- Bachelor of Engineering (Product Design)
- 2020 (Honours) (HD) GPA: 3.4/4.0

- 2023 **Google Academy Coursera**
- Google UX Design Professional Certificate
- 2024 + Webflow University Course
